

# *CMOM - Capacity, Management, Operations, & Maintenance*

## *Learn how to: Extend the Useful Life of Your Sewer System*

### *Best Practices for Wastewater Collection*

As the wastewater collection system ages, it corrodes, erodes, clogs, collapses, and ultimately deteriorates causing unacceptable levels of storm water inflow and infiltration (I&I). CMOM provides a management framework to evaluate asset condition and system performance, optimize operation and maintenance practices, and plan for capital upgrades.

- Do you have a CMOM plan in place that represents "best management practices" in all areas?
- Does your plan demonstrate a true commitment to stopping sanitary sewer overflows?
- Are you following the plan?

If you are an Operator, Administrator or Council Member attend the training and learn how to maintain acceptable levels of collection system performance by applying the principles of Asset Management.

The Rural Community Assistance Program (RCAP) is part of a nation-wide network of agencies providing technical assistance and training to help small and rural communities develop and improve water and sewer utilities. RCAP also provides a number of other community and economic development, grant writing and administration, and planning services. RCAP is administered by WSOS Community Action Commission Inc., a 501(c)3 non-profit community action agency based in Fremont, Ohio. To learn more, please visit [www.wsos.org](http://www.wsos.org).

9:00 a.m.  
Registration Opens

9:30 a.m. - 4:15 p.m.  
Training

(lunch on your own)

*April 5, 2018*

Cross Roads Branch Library  
63500 Byesville RD  
Cambridge, OH 43725

*May 9, 2018*
