

The Impact of COVID-19 on Rural and Tribal Water and Wastewater Systems

WISCONSIN

21 respondents

100% of respondents were small systems (n = 19)
 ≈ **1,337** residents
 Average system size of respondent

FACILITIES TYPE:
 0% water | **76%** both
 24% wastewater

2-3: Average full-time staff size
 Many supplement with part-time, contract or volunteer staff

Has the COVID-19 pandemic negatively impacted your system's financial position, or do you anticipate negative impacts?
43% : Yes
14% : No
43% : Not sure

FINANCIAL VIABILITY
 How long respondents can continue to pay for all system expenses under the current financial circumstances due to COVID-19:

N/A: Already could not cover all costs	Less than 2 months	2 to 6 months	7 to 12 months	More than a year	Don't know/ too early to tell	Don't want to answer

33% of respondents are not sure how long they can cover all costs under current financial conditions

88% of small systems indicated they experienced a **decrease in revenues**, comparing April 2019 to April 2020 (n = 8)

\$26,000
 small system respondent median monthly revenue decrease (n = 7)

Challenges faced because of financial conditions: **• Paying staff • Paying bills • Delays/limitations to capital improvement • Paying back existing debt**

About the survey: In early May, the RCAP Network surveyed communities to understand the financial impact of the COVID-19 pandemic on rural and tribal water and wastewater systems. Results are from systems the RCAP Network serves and are not representative of all small systems. These results, however, provide an important snapshot of rural and tribal experiences so policymakers can make informed decisions on how to address these issues during COVID-19 recovery.

The Great Lakes Community Action Partnership (GLCAP), the Great Lakes RCAP, began as a Community Action Agency more than 50 years ago serving Ohio and has since expanded to seven states. GLCAP provides rural development solutions for small communities for a variety of needs. Visit glcap.org for more info.
