1. About the Organization

Founded in 1973, the Rural Community Assistance Partnership, Inc. (RCAP) is a 501(c)(3) non-profit service delivery network comprised of a national office and six regional partners that provide technical assistance, training, and financial resources to community owned and operated water, wastewater and solid waste utilities in 2,000 small rural communities – including tribes – each year throughout the U.S. and its territories. Most communities RCAP assists are economically disadvantaged and have a population under 2,500, and many have significant minority populations. RCAP's approximately 200 field staff members include registered professional engineers, certified operators, utility finance and board management specialists, community planners, and people with other relevant backgrounds.

RCAP's work historically centered on achieving these outcomes in small rural communities:

- Improved environmental and community health
- Utilities that are in compliance with federal and state regulations
- Sustainable water and waste disposal systems
- Increased capability of local leaders to address current and future needs
- Improve coordination among federal, state and local agencies in the delivery of water and waste services

Each regional partner offers an array of services that directly respond to the needs of its area. These region-specific services include affordable housing development assistance; loans for water and wastewater infrastructure, as well as housing and business development; community and economic development; job training and placement; disaster recovery, community-based education programs; and special programming for underserved populations. RCAP field staff track performance data to enhance our capacity to fulfill our mission of “improving the quality of life in rural communities.”

The RCAP national office engages in program management, applied research, policy development, public education, communications and advocacy on rural issues, especially with respect to community infrastructure. It also supports the work of the network by obtaining financial support, sharing knowledge and best practices across the network, and promoting dialogue to help communities understand the relationship between the environment, public health, and economic viability. More information is available at <http://www.rcap.org>.

RCAP has grown significantly over the past two years, and needs to re-assess its policies for operations. This review may include, but is not limited to, the following policies: standard office policies and benefits, conflict of interest, procurement, and whistleblower.

2. Project Overview

The Rural Community Assistance Partnership (RCAP) is a national network of nonprofit organizations that have historically focused on ensuring rural and small communities throughout the United States have access to safe drinking water and sanitary wastewater and solid waste disposal. The six regional RCAPs provide a variety of programs in their region of the United States to accomplish this goal, providing technical assistance to rural communities across the country. RCAP is growing, and its policies have not been updated in more than five years. With a change in leadership and the significant growth it has seen, the organization is looking for a consultant to work with RCAP to review and update policies as appropriate.

3. Scope of Work & Deliverables

RCAP's intent is for the vendor to review the current Personnel Policy Manual and:

- a) Identify which policies are required by Federal and State law;
- b) Make specific recommendations to simplify the policies and ensure they are consistent and flexible;
- c) Make specific recommendations on which policies present conflicting information; and
- d) Compare the current Personnel Policy Manual to best practices found in other non-profits and provide recommendations for improvement.

RCAP expects the project to include the following:

- Project management;
- Review and design updated policies as appropriate; and
- Work with the Executive Director, Director of Finance and Board to identify and finalize all policies.

Expectations:

- a) Vendor will meet with Human Resources staff and Executive Director to review project planning, coordination, and the current Personnel Policy Manual to be updated and studied, in order to clarify Scope of Services, issues, concerns, desired outcomes, and defined expectations.
- b) Vendor will prepare a draft written report describing the Personnel Policy Manual review process, methodology, findings, and recommendations.
- c) Vendor will prepare a draft update of the current Personnel Policy Manual to reflect best practices and recommended policies and to ensure legal compliance.
