The Impact of COVID-19 on Rural and Tribal Water and Wastewater Systems

INDIANA

FINANCIAL VIABILITY
How long respondents can continue to pay for all system expenses under the current financial circumstances due to COVID-19:

- N/A: Already could not cover all costs
- Less than 2 months
- 2 to 6 months
- 7 to 12 months
- More than a year
- Don’t know/too early to tell
- Don’t want to answer

26% of all IN respondents cannot sustain losses for more than six months of current financial conditions

Challenges faced because of financial conditions:
- Maintaining their system
- Paying bills, like electricity
- Paying back existing debt

About the survey: In early May, the RCAP Network surveyed communities to understand the financial impact of the COVID-19 pandemic on rural and tribal water and wastewater systems. Results are from systems the RCAP Network serves and are not representative of all small systems. These results, however, provide an important snapshot of rural and tribal experiences so policymakers can make informed decisions on how to address these issues during COVID-19 recovery.

The Great Lakes Community Action Partnership (GLCAP), the Great Lakes RCAP, began as a Community Action Agency more than 50 years ago serving Ohio and has since expanded to seven states. GLCAP provides rural development solutions for small communities for a variety of needs. Visit glcap.org for more info.
